

What You Need to Know About the Dextromethorphan Sales Restriction

To help prevent teens from abusing over-the-counter (OTC) cough medicine containing the active ingredient dextromethorphan (DXM), Kentucky law (effective as of June 22, 2015) prohibits the sale of these medicines to minors.

HOW DO I KNOW IF A PRODUCT CONTAINS DXM?

- Check the Drug Facts label for the active ingredient DXM
- Check the packaging for the Stop Medicine Abuse icon

Drug Facts

Active Ingredient

Purpose

(in each 15 mL tablespoon)

Dextromethorphan HBr 15 mg Cough suppressant

Use temporarily relieves cough due to minor throat and bronchial irritation
